CAREER OPPORTUNITIES - Santa Barbara, CA

### Algorithm Developer (Ref #0907-C)

Toyon is seeking individuals capable of developing advanced algorithms to support military intelligence, surveillance, and reconnaissance (ISR) systems. Candidates should have a strong background in engineering, physics, computer science, and/or mathematics. A B.S. degree is required with advanced degrees desired. Experience with software development using the C++ computer language is desired. We are looking for individuals with experience and/or an educational background in: pattern matching, automatic target recognition, data fusion, wireless communications, target tracking, data association, estimation theory, information theory, and/or automated sensor tasking and control.

U.S. Citizenship Required
