CAREER OPPORTUNITIES – Goleta, CA

Senior Antenna/RF Engineer (Ref #1308-E)

Toyon is seeking an Antenna/RF Design Engineer with practical experience in both the design and test of antennas and the design and test of RF and microwave circuits. Join a dynamic team of creative engineers working on state-of-the-art antenna problems for radar, communications, and embedded sensors across the entire electromagnetic spectrum.

The position requires a minimum of four years RF/Antenna design experience and a Bachelors, Masters, or Ph.D. Degree in Electrical Engineering, Physics or related discipline. Excellent verbal/written skills are a must; capabilities in FSS design are a strong plus. Program management experience is highly desirable.

Familiarity with standard numerical design and analysis tools such as Ansoft HFSS or CST Microwave Studio is required. Systems-level experience is also a plus.

U.S. Citizenship Required. Ability to qualify for a US Department of Defense security clearance required.
