CAREER OPPORTUNITIES - Santa Barbara, CA

Analytical Chemist Intern (Ref #1511-G)

Toyon is seeking a highly capable and motivated student intern with interest in the field of Analytical Chemistry to work under the direction of senior technical staff in our Goleta, California office. The Analytical Chemist Intern will support GCMS sample processing, implementation of process improvements, process modeling, and development of data analysis products.

Candidates must have strong analytical capabilities and must be working toward a B.S. degree, expected Spring/Summer 2016, in Chemistry, Chemical Engineering, or a related field.

We are looking for students who have many of the following attributes:

- Self-motivated, detail oriented, and organized
- Excellent troubleshooting and problem solving skills
- Ability to work with others to conceptualize solutions to technical problems, given multiple constraints
- Desire to take ownership of existing protocols and implement improvements in efficiency or performance
- Excellent math background, and knowledge of data processing/programming tools (e.g., MATLAB, Python)
- Ability to understand, modify, and execute simulations of physical or electronic systems
- An interest and research/coursework in analytical laboratory methods
- An interest in and experience working with analytical instrumentation, particularly GCMS

U.S. Citizenship Required. Ability to qualify for a US Department of Defense security clearance required.

Please e-mail resume to: employment@toyon.com
